

Patient Fact Sheets from the American Society for Reproductive Medicine

The American Society for Reproductive Medicine (ASRM) is a professional organization that specializes in reproduction and infertility. ASRM has a Patient Information Committee that includes physicians, nurses, counselors, and other professionals that write and update fact sheets for patients. These fact sheets represent a current national consensus among professionals in reproductive medicine. The physicians at REACH generally agree with the information and advice as presented in these documents. Your physician has checked certain boxes below to direct your reading.

Go to:

1. www.reproductivefacts.org
2. Select “Resources” from the top menu bar
3. Select “Fact Sheets and Info Booklets”
4. Select your identified topics from below

Recommended Fact Sheets:

- | | |
|--|---|
| <input type="checkbox"/> Adhesions: What Are They And How Can They Be Prevented? | <input type="checkbox"/> Intrauterine Adhesions |
